Attention VA Video Connect users: Make sure to regularly update your VVC app for the best video visit experience during your next appointment. Download the latest version on your iPhone or iPad here or on your Android device here. VA Video Connect allows Veterans and their caregivers to quickly and easily meet with VA health care providers through live video on any computer, tablet, or mobile device with an internet connection. Need Help? VA can help you get set up or troubleshoot technical problems. Call the Office of Connected Care Help Desk at (866) 651-3180 24 hours a day, 7 days a week. Test your device. Visit the VA Video Connect test site to test your microphone and speakers. To test on your mobile device, text 'V' to 83293 or 323-621-3589. Standard text messaging rates may apply. You can also ask your VA care team for a practice session. Talk with your VA provider about using VA Video Connect if: You live far from your VA facility or have limited access to VA facilities. You have health conditions that make traveling to the VA specialist you need difficult. You lack time to regularly attend in-person appointments. You don't require a hands-on physical examination. Download VA Video Connect brochure. Features: Participate in secure video appointments with your VA providers Chat with your VA care team Get Started with VA Video Connect Talk with your VA health care team about using VA Video Connect. If you are interested in receiving care through VA Video Connect, speak with your VA care team to decide if it is right for you. You can use the VA facility locator to find your nearest VA Medical Center by entering your city, state, or ZIP code, then selecting "VA Health" from the facility drop-down menu. VA Telehealth is based out of your nearest VA Medical Center, not Community-Based Outpatient Clinics or Vet Centers. Get set up. Once you make an appointment to meet with your VA provider through VA Video Connect, you will receive an email notification from VA with instructions. On the date and time of your appointment, open VA Video Connect by selecting your appointment link included in the email you received. Windows and macOS. VA Video Connect opens automatically in a web browser on Windows, macOS, and Android devices after clicking the link in your email. Download the guide. Android. New VA Video Connect Android app 1.0 released. The new VA Video Connect for Android app provides a user experience optimized for Android. To install: Android users can search for VA Video Connect on Google Play and then download it for free. VA Video Connect will continue to open in Android device web browsers if the Android app is not installed. Download the guide. Apple iPad and iPhone. For VVC sessions that require the use of VA peripheral devices such as BP Monitor, thermometer, scale, Pulse Ox, Eko Duo Stethoscope, the VA app is required. Visit the Apple App Store and search for "VA Video Connect". For VVC sessions that do not include the use of VA peripherals, the VVC app is recommended but not required. If a device does not have the VVC app installed, the device will launch VVC Web when joining a video visit. Note: Some email apps on iOS devices such as Gmail and Yahoo will need to be set to open the Safari browser for VA Video Connect to open. Download the guide. Test your device. VA Video Connect Instructions for Patients Time: 2:37 minutes VA Video Connect Demonstration Time: 00:57 seconds VA Video Connect Troubleshooting Tips Time: 4:46 minutes With Veterans and VA care teams using VA Video Connect more than ever before, Connected Care Communications produced a new video that offers troubleshooting tips for VA Video Connect to address common technical difficulties and help foster long-term adoption of the video telehealth tool. The 4-minute video provides tips to troubleshoot and resolve each of seven main issues that users commonly face: Tip 1: I can't find my VA Video Connect appointment email. (0:11) Tip 2: My appointment link won't work. (0:42) Tip 3: The virtual medical room page won't load in the browser. (1:27) Tip 4: The virtual medical room takes a long time to load. (2:00) Tip 5: I cannot hear or speak to my provider. (2:34) Tip 6: I cannot see myself or my provider on the screen. (3:24) Tip 7: The video picture freezes or audio cuts in and out. (4:02) The Department of Veterans Affairs (VA) Video Connect mobile application (app) enables you to connect to a virtual medical room. In the virtual medical room, you participate in video health care visits where a hands-on physical examination is not required. You access your provider on a scheduled date and time – just like a face-to-face meeting in a clinic exam room. By providing fast, easy, encrypted, real-time access to care in the virtual medical room, VA Video Connect makes it easier for you to choose where you'd like to receive services. By connecting to the virtual medical room through VA Video Connect, you can see and talk to your VA care team from anywhere, making appointments more convenient and reducing travel and wait times. To use VA Video Connect, you must: Be enrolled in VA health care Have an email account where the link to the virtual medical room can be sent and accessed to start the video appointment. If you are using an iOS device, you must install the iOS VA Video Connect App from iTunes before joining your encounter. NOTE: Using VA Video Connect on anything other than an iOS (Apple) device does not require an app download. The session will automatically open in a web browser when the visit link is selected. VA Video Connect will work on nearly any device that has an internet connection; a web camera, microphone, and speakers (either internal or attached); and a web browser. For example, it will work on PCs, laptops, iOS mobile devices, Android mobile devices, and Windows mobile devices. If you are using an Android or Windows device (desktop, laptop, tablet), no application download is required. The session will launch automatically in the app after the session link is selected from the email invitation. If you are using an Apple mobile device, such as an iPhone or iPad, you will need to download the free VA Video Connect App from the App Store. Use this link to find more information on downloading the VA Video Connect App for your iOS device. No, VA Video Connect will work over most lower-bandwidth connections, including cellular data connections, although the quality of the video may be reduced. If cellular data is used, a 3G or 4G connection with at least two (2) connection bars is recommended. Yes, only invited participants can join a virtual medical room for a visit within VA Video Connect. Participants can always see who has joined. And further, the VA provider can lock the room once all invited participants have arrived, such that no-one else can come. You may select to view and access your video visits through the VA Online Scheduling application rather than through the emailed link. The VA Online Scheduling application does require the use of ID.me, DS Logon or My HealthVet account credentials. Learn more about VA Online Scheduling. When a VA Video Connect session is scheduled, you will receive an email with a link to join the virtual medical room. The email also includes additional resources to help you learn about and use VA Video Connect. At the time of your appointment, you simply click on the link, enter your name, and launch the session. Alternatively, you may select to view and access your video visits through the VA Online Scheduling application. Learn more about VA Online Scheduling. Appointment confirmations with instructions and links are sent when the appointment is scheduled. It is recommended that you follow instructions in the email to add the appointment and session information to your calendar. Additionally, you can set up an email folder to save all VA Video Connect invitations so that they are easy to find at the time of your appointment. You will also receive reminder emails in the week leading up to your appointment. To mute your microphone so your provider cannot hear your audio, tap the microphone icon. A slash through the microphone icon will appear indicating that your microphone is muted. Tap the microphone icon to remove the slash and unmute yourself so your provider can hear your audio. To hide your video feed so that your provider cannot see you, tap the video camera icon. A slash through the video icon will appear indicating that your video feed is hidden. Tap the video icon to remove the slash and unhide your video feed so your provider can see you. To exit the video meeting with your provider, tap the red circle with the phone icon. A pop-up Leave Session box will appear. Tap Yes, Leave to leave, or tap No to return to the video meeting. You will go back to the VA Video Connect Login screen after logging out. VA Mobile is an initiative that aims to improve Veterans' health by providing technologies to expand care beyond the traditional office visit. As part of VA Mobile, VA is releasing a series of secure apps that take advantage of the popularity of wireless technologies to support Veterans, caregivers, and VA care teams. A built-in information feature is available in the app. Tap the i icon, and a pop-up Information box will appear. Tap Help, and a pop-up Help box will appear with information about how to contact the Help Desk and provide general feedback.
